

## WELCOME TO 2024

### Message from John R Savage- NFPC Managing Director-

As we go forward into 2024, the NFPC will continue to support the Learning and Development Plans of the UK Workforce. In 2023, we invested over £250k to further improve our PRACTICAL TRAINING FACILITIES including Sensor Technology and Data Management systems.

The NFPC practical training workshops are possibly the best in Europe and supported by 10 Systems Training Engineers, with a vast knowledge and experience in Managing and Maintaining Integrated Systems.

Our Courses have a HIGH PRACTICAL CONTENT- Improving Skills and Role Competence

OUR SERVICES INCLUDE an extensive range of training Courses involving HYDRAULICS (Industrial, Mobile, Offshore (Oil and Wind Energy), Electro-Hydraulics, Pneumatics and Control.

We also offer **BESPOKE TRAINING**. We will work with you to design and deliver Courses to meet your specific needs on your site.

## How Competent is your Workforce?

As a CETOP Approved Education Centre, we are the only Centre in the UK offering 3 Levels of Competence Based Qualifications and with over 30 years of experience in writing, developing, delivering and assessing Competence.

The NFPC is an Approved Training Provider by the following Companies

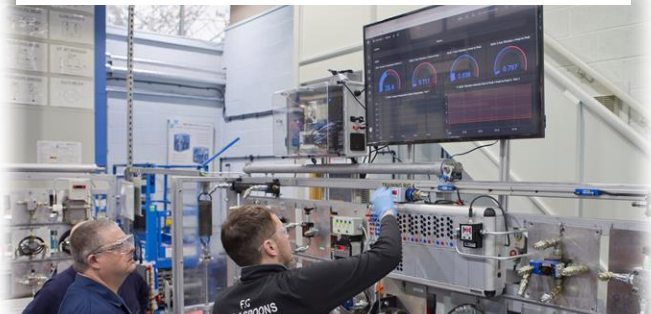

These same Companies support the developments at the National Centre and provide mentorship for our Training Engineers, making sure that we are technical up to date

## NFPC PRACTICAL TRAINING FACILITIES THEY CANNOT BE MATCHED

Learning increases through hands-on experience

**We invite you to visit the NFPC in 2024, see our World Class Facilities, meet the team and discuss your training needs- Give me a call on 01909 504709 or send me an email [jsavage@nfpc.co.uk](mailto:jsavage@nfpc.co.uk) or contact me through LinkedIn- We are based at Worksop in Nottinghamshire S817AE**

### Learning & Development- Course Planning

We have all of our courses planned for 2024

- Course Planner issue 52- Jan-July 2024
- Course Planner issue 53- Aug-Dec 2024
