

# CETOP COMPETENCE BASED QUALIFICATIONS

The National Fluid Power Centre  
based at Worksoop in Nottinghamshire S81 7AE  
Is a **CETOP** Approved Education Centre.

We are the only UK Centre offering  
Competence based Qualifications  
at Levels 1,2 and 3 involving

- Industrial Hydraulics
- Mobile Hydraulics
- Pneumatics
- And Fluid Power Electronics (to follow)

Courses are designed following CETOP Education Recommendations.

<https://www.cetop.org/education/education-recommendations/>

They will involve:

- Written Examinations
- Practical Task Assessments
- Technical Assignments (at some levels)

Before considering this range of Competence Based Qualifications, study the NFPC Recommended Progression Route By visiting [www.nfpc.co.uk](http://www.nfpc.co.uk) and course planners outlining costs and dates etc

*On successful completion of these qualifications you will receive:*

- 1) A certificate from the NFPC outlining the range of Competencies for which you have been assessed
- 2) A CETOP Certificate via the British Fluid Power Association (BFPA)

*The NFPC has been successfully delivering CETOP Competence Based Qualifications for over 25 years and through our training courses and the support of our very experienced Systems Training Engineers, we will assist you in every way to achieve these vital qualifications*
